# A World without Poverty

Together we make it happen

We support people affected by poverty and empower them to live a self-determined, sustainable and healthy life. In Bolivia and Peru, we achieve our mission thanks to the Suyana programme which was developed in cooperation with rural communities.

# Committed and collaborative

Our local teams in 4x4 vehicles, with built-in dentistry clinics, reach out to families in remote rural areas and together, develop a positive perspective for the future. We work with a holistic approach in the following areas:
